TORY CON-MEN OFFER 'PROMISE-LAND' AGAIN....

ISSUE No. 12

IMMIGRATION: TORIES RE-ISSUE 1970 VOTE-CATCH SWINDLE

HAS TORY LEADER MRS. MARGARET THATCHER REALLY PROMISED THAT A FUTURE CONSERVATIVE GOVERNMENT WOULD STOP IMMIGRATION?

The answer is "NO". She has simply uttered cunning phrases which SOUND anti-immigration at first hearing but which on closer study do not commit a future Conservative government to take ANY action to halt immigration.

This is not the first time the cynical Conservatives have tried to trick their way into power by offering the electorate worthless "we'll stop Immigration" promises before a General Election.

Just before the June 1970 election the Tories promised:

1. The number of Immigrants will be strictly limited.
2. They will not be granted an unconditional right to settle permanently.
3. Only wives and children will be classed as 'dependants'.
4. New Immigrants will be kept out of areas where social services were already strained.

After winning office the Tories broke ALL of these promises and allowed an extra 100,000 Ugandan Asians to pour in!

What does today's alleged Conservative "hard-line on Immigration" really amount to? On 23rd January *The Guardian* reported:

"The Conservatives are said to be closely considering a cut in the rate of entry... They are also carefully studying possible definitions of the term 'dependant' which could limit rights of entry..."

"Considering"... "studying"... "possible"... "could". These are empty weasel words.

The only solid undertakings made by Mrs. Thatcher have been given to the Immigrants (and to their hundreds of thousands of relations still waiting to pour in) — NOT to the British people!

The pro-Immigration former Conservative Home Secretary, Lord Robert Carr, told the *Evening Standard* on 16th February:

"I am delighted that Mrs.

Thatcher has specifically promised not to remove the rights of U.K. passport-holders. I was very alarmed by the headlines with which Mrs. Thatcher's views were put over. But when I read the small print I found myself re-assured."

Mrs. Thatcher obviously hopes that anti-Immigration voters will not bother to read the small print under the deliberately misleading press headlines and will have forgotten all about the Tory Party's 1970 election swindle.

Tory chatter about "offering the prospect of an end to Immigration" is like the carrot which a farmer dangles just in front of his donkey's nose. The carrot is not "offered" for the donkey to eat — but simply in order to get the stupid animal to move!

Are you going to let the Tories treat you like a donkey again?

Meanwhile.... This is what Mrs. T. tells the Immigrants

"It is my hope that ALL our peoples, from wherever they come, will play a full part in our national renaissance. Our country needs all of us."

"STOP IMMIGRATION — START REPATRIATION"

Only National Front candidates will do it. All you have to do is VOTE for them

SYLVIA JONES FOR WYCOMBE

"I will be fighting a very strong 'Stop Immigration — Start Repatriation' campaign in this election. I make no apologies for that. Our children must be protected."

These resolute words come from 36 year old housewife Mrs. Sylvia

Mrs. SYLVIA JONES
"Our children must be protected"

Jones who has been adopted as the National Front candidate in the forthcoming Parliamentary by-election for Wycombe, Bucks.

Mrs. Jones and her husband, Morgan, have been living in High Wycombe for 20 years. They have a 12 year old son, Lewis. Mr. Jones is a carpenter and is Chairman of the High Wycombe NF Branch. Mrs. Jones is Branch Secretary.

"My husband and I used to be Labour voters," says Mrs. Jones, "but we have seen the Labour Party become increasingly dominated by Left Wing extremists whose sole concern seems to be the welfare of the Immigrants, not the ordinary British people."

"Slowing down the rate of Immigration" cannot now avert a race crisis in Britain.

In reference to women of child-bearing age the 1971 Population Census revealed:

1. Every 1,000 White British women had 84 babies a year;
2. Every 1,000 West Indian women had 108 babies a year;
3. EVERY 1,000 ASIAN WOMEN HAD 200 BABIES A YEAR.

MAY will see large numbers of NF candidates standing in Metropolitan District Council elections in many major cities.

Hundreds of NF candidates will also be standing in the London Borough Council elections which fall on the same date.

In many areas the Press has predicted that NF candidates will be beating either Labour or Tory candidates into second place. In some wards it has been suggested that the NF stands a chance of winning.

All these NF candidates will make it clear:

"We intend to discriminate in favour of British White people in housing, jobs, education and welfare."

ELECTIONS: OUR ROAD TO POWER

AT a recent series of rallies designed to 'wind-up' the NF membership to make a maximum effort in the forthcoming elections members were asked: "What was the most significant NF event of 1977?" The answer came: "Last May's Greater London Council election."

In that campaign the NF nominated 91 candidates who won 119,000 votes, beating 33 Liberals and causing Labour to lose at least three constituencies.

That event marked the NF's transformation from a pressure group to a political party able to mobilise enough electoral support to disturb the Establishment parties' power balance.

The Establishment would like nothing better than to see

the NF confine itself solely to 'safety-valve' activities like marches and demos. The Establishment is sick with fear now that our energies are increasingly directed to taking "their" votes and changing "their" political map.

The last two General Elections were decided by a handful of constituencies. As three GLC constituencies changed hands as a result of the intervention of 91 NF candidates, it is clear that the promised intervention of 300+ NF candidates in the General Election could be the decisive factor in determining who wins that election.

We must strain every muscle to ensure that this promise becomes a reality. Hundreds of thousands of voters are desperate to vote NF. We must give them the chance.

NF News seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful — only "racial hatred".

Repatriation: Israel shows how

ISRAEL has given a positive lead to racists everywhere with her nonsense treatment of Black Immigrants who have attempted to settle in the Negev area.

Israel's "Law of Return" allows any Jew from any part of the world to enter Israel and claim citizenship.

A sect of American Blacks adopted the Jewish faith and flocked to Israel as tourists. On arrival they tore up their American passports and claimed Israeli citizenship. "We are Jews," they said.

The Israeli Government declared: "These Blacks are not real Jews. They have constructed a settlement without proper authorisation." Immediate steps were taken to throw them out.

Dr. Jacob Gewirtz, Director of the "Anti-Racist" Committee of the Jewish Board of Deputies in London (which supports Black Immigration to Britain) has expressed wholehearted support for the Israeli action... but only to Jewish audiences.

MADNESS TO HAVE 1½ MILLION UNEMPLOYED WHILE FOREIGN GOODS POUR IN

IMPORT BAN THE WAY TO CREATE JOBS

NOT ONLY does Britain's unemployed figure top 1½ million, even the Government itself says that it is now not likely to decrease substantially until well into the 1980's.

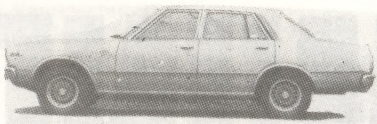

This is appalling testimony to the Government's record of ineptitude, incompetence and failure.

And yet Britain's high unemployment is absolutely needless. While 1½ million Britons stand idle, there is actually work to do — the work of producing a vast range of goods that Britain needs.

These include cars, motor-cycles, commercial vehicles, cameras, typewriters, electronic goods, aircraft, armaments, boots and shoes, textiles.

If Britain produced all she needed of these things, there would be work in abundance for all — and still room for mechanisation that would result in less workers needed to produce the same article.

Britain, however, is crazy. She prefers to keep 1½ million doing nothing while the goods they could be making are imported from

The Datsun: another Jap invader

Abroad.

Consider some of the facts. We have the skills in this country to produce the best cars in the world, yet today nearly half the new cars on our roads are made abroad.

Then motor lorries. Anyone who is used to driving up and down our highways will know the huge share of the British market now taken by Continental trucks, such as Scania and Volvo of Sweden, Mercedes, MAN and Magirus Deutz of German, Fiat of Italy, Saviem and Berliet of France and DAF of Holland.

As for motor-cycles, the British bike is almost an antique these days. Our ton-up kids tear around on Italian, Japanese, German and other foreign bikes. Even our Police are beginning to go foreign.

What about footwear? Round about half the shoes now sold in British shops are foreign. Meanwhile thousands of jobs in the British footwear industry are being lost.

It's the same with textiles. A huge part of the population of the industrial North is dependent for a living, directly or indirectly, on the textile industry, but under our Labour and Tory governments the

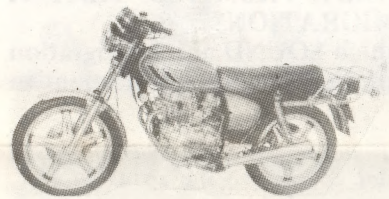

textile and clothing industries are simply being destroyed.

Today over 30 per-cent of the shirts we buy are made abroad. It's the same with jeans. With men's jackets the figure is 40 per-cent; blouses 50 per-cent and sweaters 70 per-cent.

Then there's electronics. Here the British industry is being murdered. Transistor radios, tape recorders, TV tubes, calculators, electrical goods of every description are flooding in, putting Britons out of work.

And all this is harming our balance of payments too!

When we challenge the old parties on this issue, they always come up

Jap motor-bikes have flooded Britain

with the old stock answers. Here are some of them:

They say: "British industries are losing out because they are inefficient. Make them more efficient and they will gain the lost ground. The way to do this is not to stop imports because that will harm our exports."

The "inefficiency" argument is only partly true. Our textile industry is not being killed because of its inefficiency; in fact it is as efficient as most. It is being priced out of the market by cheap goods from the East — produced by Asia's huge cheap labour pool. Footwear is in

much the same position.

Both these industries also suffer from cut-price competition from subsidised industries in Eastern Europe.

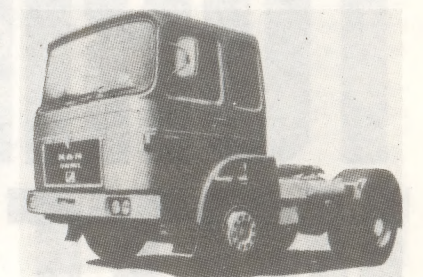

In electronics the Japanese are at war with us. What they have done is get into the British market by selling at rock bottom prices. Then when our own industries have gone out of business they have dramatically raised their prices. We cannot do the same in Japan — Japanese import controls prevent us!

In the motor and motor cycle industries inefficiency and bad forward planning have been rife — but isn't that a smack in the eye for the theory, beloved by the Tories, that a lot of foreign competition makes for efficiency?

Imports alone haven't been the cause of our problems in these industries; there's been a lot more wrong which must be put right.

But we can't start to put things right till we have an assured market for which to produce, and the only market we can assure for ourselves is the British home market. And there just isn't a British market until we stop the flood of imports.

What about the theory that "stopping imports will harm our export trade"? Well, the fact is it just doesn't stand up. The Japanese

Buy this lorry and you give jobs to Germans

for years have had barriers against imported manufactures — have these stopped them being a successful exporter?

The real secret of the success of the Japanese is that they've been nationalistic — they've protected their own home market. That's why unemployment in Japan is much lower than here.

Britain, on the other hand, has adopted an internationalistic policy. The result? She's got high unemployment and she's practically broke.

The solution to unemployment and national insolvency? Get British workers in British factories producing all the manufactured goods Britain needs. Buy British and buy British only — and beat the Japs at their own game!

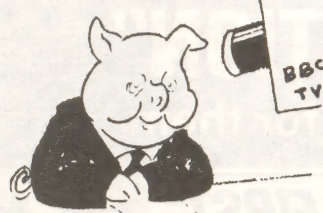

The Tri-Star: why does BA buy American and not British?

Most cameras, like this Jap one, imported

Euro-Parliamentary treason

THE "European Direct Elections Bill" was passed through the House of Common on 24th November last year. This new law is intended to ensure that the British people will become a small minority within the European Superstate.

It will place the destiny of the British people within the hands of a 'European Assembly' (Euro-Parliament) elected by all the peoples of Europe.

The Euro-Parliament will be composed of 410 delegates. Of these only 81 will be British. The British position will be diluted further by the provision that these 81 will be split into 66 for England, 8 for Scotland, 4 for Wales and 3 for Northern Ireland.

Each of the 81 British delegates will be financed by the British taxpayer to the tune of a salary of £25,000 a year — plus another £10,000 a year tax-free allowances!

The Euro-Parliament is not answerable to our British Parliament at Westminster, yet it will have absolute power to decide on matters of policy within the British Isles.

It may see British North Sea Oil as a valuable asset and vote to expropriate this for European use. It may decide that Britain's fishing fleet has no exclusive rights within British waters — even though British waters provide 60 per cent

of the EEC's catch! But the dangers to Britain posed by the Euro-Parliament are political, not just economic and industrial.

Of the present member nations of the EEC, Italy is currently on the brink of adopting a government jointly comprised of Communists and Christian Democrats; French elections are likely to bring to power a Socialist/Communist alliance; and Germany is wracked by Red Army Faction terrorism.

Nations soon to be admitted to the EEC include Spain, Portugal and Greece — each of whom have recently undergone Left-Liberal or Marxist revolutions.

The Euro-Parliament within a few years could easily produce a Communist majority which would set about uniting the EEC with the 'Comecon' Warsaw Pact countries.

Indeed, the International Banker founders of the Common Market envisaged a European unification "from the Atlantic to the Urals" as an essential step to their ultimate goal of World Government controlled by usury.

British Army vehicles rely on Soviet spares!

SUCCESSIVE Labour and Conservative governments have cut so deeply into Britain's defence budget that our Armed Services are little more than a joke in Kremlin circles.

The joke which the Kremlin war lords enjoy the most is the fact that such puny forces as Britain still maintains are increasingly reliant on spare parts made in the Soviet Union!

The fact that "all British Army vehicles now in service use bearings made behind the Iron Curtain" has been admitted by Dr. John Gilbert, Defence Minister of State.

He said that the practice "dates back to 1973 and has been continued under Conservative as well as Labour administrations." He boldly called this "a normal commercial practice" and declared it would be continued.

It was discovered last year that Scorpion tanks in service with the 16/5th Lancers Regiment were being fitted with air-cooling system bearings made in the USSR.

Dr. Gilbert stated that these Soviet spares had been provided by "the usual British and Belgian sup-

pliers". These "usual" suppliers gave such poor service that Scorpion tanks had been known to be out of service for up to three months awaiting spares!

Numerous firms in Britain exist which are well able to provide all the Defence Ministry's spare parts requirements. But for some reason the British Government prefers to keep the wheels of Soviet industry running — despite the appalling rate of unemployment in Britain.

Britain, West Germany and Italy are jointly developing a multi-role combat aircraft called the Tornado which is intended to go into service with the RAF in the 1980's. Titanium sponge imported from the Soviet Union is being used in its manufacture.

Under a National Front government all equipment for Britain's Armed Services, including spares, will be made in British factories by British workers.

NF News Nightmare BIRMINGHAM SPECIAL File

VOODOO was practised by Asian salesman Gurbachan Singh Sharma when he persuaded a teenage girl to strip to her bra and panties before placing a hot saucepan lid on her stomach, Birmingham Crown Court heard recently. Sharma told superstitious West Indian women that they were possessed by "evil spirits" and would become "crazed by the devil" unless he treated them. His treatment employed teapot and saucepan lids, washing up liquids and scouring pads which he held to the women's bodies to draw out the devil. He was convicted of obtaining money by false pretences.

A **SABRE SWORD** was used by a gang of Blacks when they burst into a jewellers in the Sparkhill area and loaded jewellery into a plastic refuse bag, after locking up the shopkeeper. Two of the gang were schoolboys, one of them described as having "Afro-style hair, a thin moustache and wearing a school blazer."

TERRIFIED PENSIONERS are fearful of becoming mugging victims when rent collections end this year. Old people will have to journey by bus to the Post Office with their rents, and say they are certain to be mugged by Blacks. One 73 year-old pensioner was knocked unconscious by West Indians in Stephenson Street but managed to cling on to her handbag containing £300. Another 71 year-old woman was less lucky when she was surrounded by 15 Blacks in Union Street, mugged and robbed of £500 from her handbag. Another man was grabbed round the throat in a lift by Black muggers, robbed of £175 and left trapped in the lift.

AXE-WIELDING and shotgun carrying West Indians stormed an Edgbaston supermarket in a robbery described as "very vicious" by local Police. After robbing the security guard of £1,300, a six-foot Black wearing a woolly hat "came at him with a scream" and needlessly slashed him with the axe, necessitating several stitches in his hand. Revolvers were also carried by the gang.

A **SPASTIC** was beaten to the ground by a West Indian and robbed of the money that he hoped to put into a building society until he needed to buy Christmas presents. "I lay helpless on the ground," said crippled Charles Bickley who is paralysed and can only write with a pen in his mouth. Police described the crime as "despicable".

A **RIOT** erupted when a 600 strong crowd of Blacks was turned away from a Birmingham night club. Police were called to quell violence and one was stabbed in the back. A similar incident took place after closing time at an off-licence. A 6ft. 2in. West Indian "with dreadlocks hair style and pock-marked face" knifed the licensee in the stomach after he was refused service. The man needed emergency treatment.

A **KNIFE GANG** of Black hooligans attacked and robbed a deaf and dumb woman in Birmingham's Bull Ring market. One of the gang, wearing a woolly hat, gold earrings and rings on all his fingers slashed open Mrs. Barbara Berry's handbag with a sheath knife and stole £9.

NAKED and unconscious was how a gang of male and female muggers left their victim, 30 year old Susan Hughes, after robbing her of £30. As Susan left Birmingham's Talk of the Town night club her attackers forced her into a dark alley, stripped her and hit her over the head with a bottle. The gang made off after finding the cash hidden in one of her shoes. She needed stitches and a blood transfusion after the attack. One of her female assailants was jailed for four years. Two other Black youths aged 17 and 20 were jailed for three and two years.

A **TOILET** in the centre of Birmingham was where a half-caste mugger wielding a foot long knife robbed a 63 year-old man of £125. He burst into the toilet and cornered the man at the urinal. Police described the assailant as "scruffy with bushy Afro hairstyle and a scar on his right cheek."

MUGGERS and vandals on the rampage in Handsworth will be checked by £32,000 worth of new street lighting, hope Birmingham council chiefs. They claim that the new vapour street lights, brighter and longer lasting, will frighten off the muggers who have turned the area into one of the most terror-stricken city areas in Britain. White residents, though, are dubious, since countless numbers of muggings occur in broad daylight.

A **WEST INDIAN** stabbed an 18 year old White girl in the face - for a packet of cigarettes. Pretty Sheena Wilson was slashed above the eye and on the cheek as she fought off her attacker. The assault took place as she walked down Houghton Road, Handsworth in broad daylight.

Handsworth: 'Black criminalised sub-culture'

THERE IS a mugging or assault every two days in Handsworth, the Immigrant-infested suburb of Birmingham that has become a ghetto of violence and terror.

In the year from July 1976 to June 1977 there were 215 muggings, 213 woundings and 307 cases of criminal damage.

Out of 160 cases of mugging investigated by the Police, 117 of the victims described their attackers as West Indian.

A recent Police report on the rising crime wave in Handsworth described the majority of the victims as "defenceless - mainly

women and the elderly, and most of them White."

Handsworth is the area of Birmingham where "multi-racialism"

is exposed in its full horror.

This decaying suburb is the haunt of what a Police report describes as a Black "criminalised

sub-culture" living in squats, rabbit-warrens where nests of Rastafarian muggers and thieves are in hiding from the Police.

The area accounts for no less than 19 per cent of the crimes in the whole of the West Midlands.

Additional Police have had to be drafted in to Handsworth to cope with the explosion of Black crime. Meanwhile Police "mugging patrols" in Birmingham's parks have had to be increased at an extra cost of £25,000 a year.

"If we are to deal with this problem," said a Birmingham councillor recently, "then we have to admit that the races are not equal."

"Their victims are defenceless old White women"

Racial Battles in playgrounds

RACIAL violence is a regular occurrence in Birmingham schools, despite claims by teachers that they are scenes of multi-racial bliss.

Black and White boys have had to be separated in racial fights in the playground, and at Quintons Four Dwellings Comprehensive school pupils had to have an escort to their buses for protection. Others have been forced to leave school early.

Meanwhile, Birmingham city councillors have considered plans to scrap a playground which became the meeting place of young Black hooligans who were terrorising local residents.

Cllr. Albert Orchard reported that a 71 year old woman and her husband had been attacked and beaten by a group of young Blacks after they had complained about noise.

West Indian leaders have admitted that 13 and 14 year-old Black "minors are let loose on the rampage, mugging and robbing", and committing vandalism.

Vandalism has cost the city a staggering £1½ million a year - £4,100 a day.

BIRMINGHAM MULTI-RACIAL NIGHTMARE CITY

"Coloured Immigration will bring Britain cultural enrichment" promised Conservative, Labour and Liberal politicians. This special feature examines how Britain's second-largest city is being MURDERED - not "enriched" - by Immigration.

They have come "to enrich your environment"

Drugs and Prostitutes

DRUGS and prostitution rackets in Birmingham are dominated by gangs of Immigrants.

Prostitution king Rahman Abdul Khan was finally jailed for 3 years at Birmingham Crown Court after being convicted of abducting a sixteen-year old White girl with the intention of forcing her into prostitution.

The girl was kept overnight in the bedroom of Khan and his girlfriend, where she was beaten with a chain attached to a piece of wood for refusing to become a prostitute.

West Indian Anthony Berry and his son Leonard were recently charged with running a major cannabis smuggling operation from Jamaica. Parcels disguised as chocolates were sent by the father to his son's home at Edgbaston.

The case follows the discovery of a £28,000 morphine smuggling racket between Delhi and Birmingham, for which Kaka Singh Thandi and his brothers Jasbir and Mibbo Singh Thandi were jailed, and of another cannabis smuggling operation run by Asian immigrant Kwang Kee Sim and African Emmanuel Johnson.

RASTA 'DREADS' TERRORISE WHITE WOMEN

THE reign of terror throughout Handsworth, Birmingham is led by members of the bizarre 'Rastafarian' cult, according to a recent Police report.

Also known as "The Dreads", because they wear their hair in spiked braids called "dreadlocks", these criminal Blacks are mainly responsible for the 400 robberies which take place every month against defenceless White women.

The Rastafarians, who live in 'squats' in empty houses, claim to worship the late Emperor Haile Selassie and wear woollen 'tea cosy' hats with the Ethiopian national colours of green, red and orange.

More than 6,000 muggings,

assaults and woundings have been committed by the sect, which specialises in terror and extortion.

The Police report, called *Shades*

of Grey, states that, "apart from the specific crimes for which they are responsible, they constantly threaten the peace of individual

citizens."

The report also details frequent attacks on the Police. "Look, there's the scar still on my arm where a Rasta bit me last year - right through my uniform," reports one Sergeant from Handsworth.

Women Police officers are favourite victims of assault by Rastafarians. One WPC told the author of the report:

"They've said they'll take a WPC, gang-bang her and return the bits to the police station. I've been followed by groups of Rastas out on patrol, and involved in incidents that really frighten me.

"It has made me wonder how long I can continue."

HOSTEL RUN BY MURDER SECT

AN inquiry was ordered into a Council-sponsored hostel for homeless young girls in Balsall Heath, Birmingham when it was discovered that it was run by a maniacal Indian sect whose leader is serving life imprisonment for a ritual murder.

The sect is called *Ananda Marga* ("Path to Bliss"), and has a record of terrorism in India. Recently the

sect has threatened reprisals unless its chief, 'Guru' Phrabhat Ranjan Sarkar, is freed from serving a life sentence in India for ritual murder.

The Social Services Department of Birmingham Council, however, was placing homeless girls of sixteen in the hostel run by the sect, unaware of its bloodthirsty record abroad.

Muslim slaughter-house horrors

FAMILIES living in the Aston area of Birmingham are up in arms over the disgusting conditions in which Muslims are sending thousands of chickens every week for slaughter.

Residents described how 3,000 chickens are crammed into delivery lorries which travel from a breeding farm to Muslim grocery stores, where they are cruelly slaughtered.

"The chickens are gasping for breath," said one resident, "their legs seem to be trapped under the iron crates."

As many as 15 chickens are crammed into one small crate. In accordance with Muslim religious law, the chickens are ritually slaughtered by cutting their throats while they are fully conscious.

BLACKS WAGE WAR AGAINST POLICE

MOBS of violent Blacks are waging gang war against the Birmingham Police.

The city accounts for most of the serious assaults on Police in the West Midlands, where over 25 Police officers are badly beaten up every month.

PC Michael Braycotten was hospitalised when a rampaging mob of Blacks in Handsworth stoned his car to prevent him making an arrest. A bottle was smashed over his head.

Also in Handsworth, a 20 year-old Policewoman was ambushed by two female Blacks, knocked to the ground, punched and kicked.

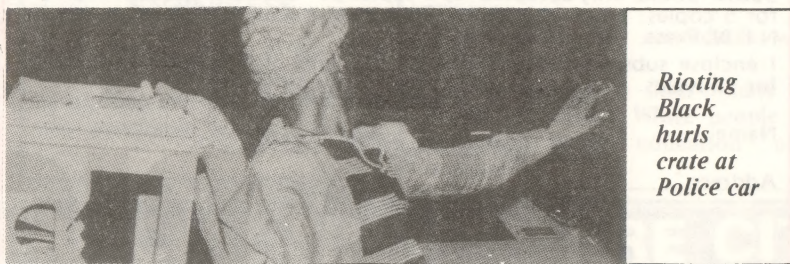

PC Cook, who questioned a

Black driver in the Lozells area, was suddenly showered with missiles as a mob of 50 woolly-hatted Blacks ran out from a nearby West Indian party.

He was punched and kicked unconscious. Policemen who went to help retreated under a hail of bricks

and bottles.

PC Paul Sanders was smashed in the face by Asian Balbir Singh, who resisted arrest with an ornamental knife, which he claimed was a "letter opener". Female Blacks have attacked Policemen with knives and steam irons.

FRONTLINE ACTION

CANTERBURY, Kent: Bully-boy reporters from the *Sunday People* and Socialist Workers Party thugs have failed in a joint campaign to intimidate teacher Miss Joan White (left) into standing down as the NF Parliamentary candidate for Canterbury and resigning her post at a local R.C. comprehensive school. Seeing Miss White was unabashed by a *Sunday People* front page smear, the S.W.P. moved in and distributed leaflets inciting pupils to violence against her. Miss White's calm refusal to back down in the face of such tactics has won her widespread respect and sympathy.

CHESHAM, Bucks: In late January the press reported that 20 members of Hemel Hempstead NF Branch "broke up a Church service at St. Mary's, Chesham, which had been organised to pray for racial harmony. They shouted abuse and sang a hymn of hate, but this was drowned by a hymn of Christian love." In fact the occasion was a public meeting held in the Church Hall, not a service in the Church. The multi-racialist vicar asked for questions after his political speech. When an NF member started to oblige, the Vicar tried to silence him by announcing a period of silent prayer! The only hymn the NF members sang was *God Save The Queen!*

BIRMINGHAM: A new propaganda medium has been developed by NF Activists in Birmingham who work in Leylands, Rover and other big factories in the city. They have bought portable cassette tape recorders and during meal breaks they entertain their mates by playing recordings of speeches at NF meetings and extracts from radio or TV programmes which featured the NF. The operation is co-ordinated by local Activist Mr. Harry Finch who is developing a fine tape library. This idea should be taken up everywhere.

IPSWICH, Suffolk: A crowd of about 200 screaming, jostling S.W.P. demonstrators - mostly students imported from Essex University - failed to stop 50 NF members from attending the monthly meeting of Ipswich Branch in Ipswich Town Hall on 4th February. However, some of the Red thugs beat up Mr. E. V. Griffin, a Conservative District Councillor, as he was on his way, alone, to the meeting. Mr. Griffin is the father of NF member Nick Griffin, a Cambridge student who is a member of the YNF National Secretariat. Meeting Chairman was Mr. Tony Williams, Ipswich Branch Organiser.

BRADFORD, Yorks: A High Court legal battle between Mr. David Matson (left), a member of the Bradford NF Branch Committee, and the Executive of the Bradford Trades Council, is in the offing. Last year Mr. Matson - for many years a member of the Sheet Metalworkers' Union - was elected by the members of his union Branch to be their Trades Council delegate. They all knew of his NF membership. However, the ultra-Leftists who control the Trades Council have physically prevented Mr. Matson from entering meetings of the Council, saying they had just passed a resolution banning delegates who hold NF membership. Mr. Matson refuses to be intimidated. If his solicitor advises that he has a good chance of obtaining a High Court Injunction against the Trades Council bullies, *NF News* will set up a fund to sponsor his action.

HAMMERSMITH, West London: Sustained efforts by the Labour Party in Hammersmith, in liaison with the SWP and the local Community Relations Council, to halt the rapid growth of the NF in the area have failed. When the Borough Council banned the NF from hiring 'public' halls, Hammersmith NF Branch Organiser Mr. Martyn Heale (left) found a pub with a large hall which the landlord was happy to rent to the NF. Attempts by SWP mobs to drive *NF News* sellers out of the King Street shopping area on Saturdays have failed, as has an attempt by a Labour Councillor to prosecute Mr. Heale under the Race Relations Act. Now the NF Branch is working to get a high number of NF candidates nominated for the May Borough Council elections.

BRISTOL: Fifty members of Bristol NF Branch picketed a Labour Party conference at the city's Colston Hall on 28th January in protest at the Labour-controlled City Council ban on the letting of 'public' halls to the NF. The ban has not stopped NF growth in Bristol. The Branch will fight all of the city's five constituencies at the General Election. Mr. Gerald Gannaway, Bristol Branch Activist and twin brother of Philip Gannaway, the Branch Chairman, has been appointed Regional Agent for S.W. England.

REDS HOWL HATE AT Y.N.F.

SHRIEKS of anguish went up from Leftists when the newly-formed Young National Front announced that it was to campaign against Marxist indoctrination in schools.

Spearheading this campaign are two items of literature: a leaflet *How to Spot a Red Teacher* - for distribution at school gates; and a handbook for activists: *How to Combat Red Teachers*. Details of the campaign and sample

copies of the new literature were given at a packed Press Conference held at Caxton Hall, Westminster, London on Thursday 19th January.

Representing the Secretariat of the YNF at the Press Conference were: Tim White (Administration); Kevin Randall (Press Relations); Richard Verrall (deputising for Cmdr. Andrew Fountaine, the YNF Chairman); Joe Pearce (Organiser); and Melanie Dixon (Regional Representative).

On Saturday 21st January the YNF held its first demonstration - a picket outside the Inner London Education Authority TV studio in Battersea, South London, which transmits films which

promote teenage inter-racial sex.

In February *Bulldog* - originally the local YNF bulletin for the Barking, East London, area - was adopted as the YNF's national magazine, under its founding Editor, Joe Pearce. Within two weeks the 30,000 copies of the first issue were sold out.

The culmination of the YNF launching campaign came in Birmingham on Saturday 18th February with the first national YNF rally held at the Digbeth Civic Hall.

Frantic efforts were made by the usual alliance of Zionist and Communist organisations to get the rally banned, but these anti-free speech efforts were unsuccessful.

Because of this the Reds mobilised and led Birmingham's Black hooligan fraternity in a vicious revenge riot against the unfortunate Police.

Inside the hall 400 orderly but enthusiastic YNF youngsters from all parts of Britain resolved to step up their anti-Communist crusade.

JOHN HUGHES IN ILFORD ELECTION

AS this issue goes to press Mr. John Hughes, Chairman of the Redbridge NF Branch, is standing as the NF candidate in the Ilford North by-election.

Mr. Hughes is married with one young son and lives in Ilford. He is self-employed in the antiques trade and has been an NF member since 1972.

"The National Front is the only party that stands up for the British people," Mr. Hughes told a crowded campaign rally at Fairlop on 20th February.

War criminal Begin told: 'Get Out!'

HUNDREDS of NF members demonstrated against the recent visit to Britain of Israel's Prime Minister and leading war criminal, Menachem Begin. Ex-Palestine Police NF member Mr. James Sawyer applied for a Warrant for the arrest of Begin for the murder of two British Army sergeants in 1948. Magistrates rejected the application without giving reason.

NF honours Britain's War dead

THOUSANDS of National Front members attended the NF's annual Remembrance Day parade to The Cenotaph in Whitehall. In the centre of the top picture, left to right, are John Tyndall, NF Chairman; Andrew Fountaine, NF Deputy Chairman; and Wing Commander P. Lewis Wittam. At far right is Rev.

Brian Green who conducted the religious service. The picture below shows the head of the huge NF column winding its way to Millbank where a vast open-air rally was held. This great demonstration of patriotism was ignored by the Press and TV because it went off peacefully.

MOB VIOLENCE FAILS TO STOP N.F. MEETINGS BUT WINS REDS THUG IMAGE

THE LEFT in Britain set out to physically smash the NF in 1977. Thanks to the courage of ordinary NF members and the determination of Britain's Police forces to uphold the Law, the NF was not smashed at Lewisham, Ladywood or Manchester.

A further string of failures for Red mob violence has been seen in January and February of this year - at Hyde and then in Bolton, Gtr. Manchester; and in Birmingham.

On each occasion the Communist-Zionist alliance threatened mob violence unless an NF meeting was cancelled. On each occasion the NF held its meeting.

On each occasion the Red mob took on the Police and came off worse - tactically and politically.

At Hyde the local NF Group had booked the Town Hall for a private members' meeting for Thursday 26th January.

The Secretary of the N.W. Council of the T.U.C., Colin Barnett (who continually boasts of his half-Jewish ancestry despite his "anti-racism") vowed he would "flood Hyde with 10,000 anti-NF demonstrators."

On the night Police outnumbered the Reds 2 to 1 and the NF members transacted their business undisturbed.

Desperate to restore lost face, Barnett mobilised his Rentamob again on 10th February to try and stop the NF rally at Bolton Town Hall at which NF Chairman John Tyndall was main speaker.

Again the Police were more than a match for the Reds - 19 of whom were arrested. Many had weapons confiscated.

At Birmingham on 18th February Red hooligans and Immigrant muggers (mobilised by "former" Communist Party member Moishe Ludmer, Chairman of Birmingham Trades Council) rioted and attacked the Police cordon

Mallets, knives, clubs, staves - some of the weapons taken from "Anti-Nazi League" supporters at Bolton

round Digbeth Civic Hall where 400 Young National Front members were holding a private members meeting.

In Britain political violence, to be effective, must achieve a "quick kill" or else it is self-defeating. The repetition of these anti-NF riots will enable the public to discern the essential pattern of such events.

Already the sinister implications of this wave of Red street violence being instigated by Zionists is dawning on an ever-wider audience.
